

## New Streetfighter V4 Push Forward

The new 2023 Streetfighter V4 represents the evolution of the Fight Formula. Stemming from the advanced technological solutions of the Panigale V4 family, this super sport is stripped of its fairings and given a high and wide handlebar and a shamelessly aggressive matte black and grey livery. 178 kg (392 lb), it flaunts the 1,103 cc Desmosedici Stradale engine delivering 208 hp (153 kW), and biplane wings. The electronics equipment completes the package, with engine curves differentiated gear by gear, Full Engine Mode, Wet Riding Mode, and a new Track EVO display for the TFT dashboard.

With its exciting design and electrifying performance, the new Streetfighter V4 is a concentration of sports attitude that will push you ever further.
